▶ THIS IDEA that some folks have regarding law enforcement is of concern to a lot of law enforcement officers. Some folks want laws enforced on the other fellow but when it comes to enforcing the laws on them—NO—NO—NO. They want to be the untouchables. Only by close co-operation with all citizens regarding law enforcement can we really have a safe town or community to live in.

▶ TALKING TO Kenneth Eubanks and Jewell Abernathy, that they well remember the balloon ascension at the Old Settlers Reunion many, many years ago. "Hope that they have it again this year," Eubanks and Abernathy told Your Home Towners. All the little children and the grown ups would like to see it. Talked to Paul Wilson, he is the chairman, according to Pat Simpson. It would no doubt bring thousands of thousands of people to McKinney that day.

▶ COMMITTEE'S ARE hard at work making plans for the biggest and best Collin County Fair ever to be held. Another feature of the fair this year will be the Big Rodeo that will be staged three nights. This should draw thousands of people from North Texas. There is no finer entertainment and clean fun than a Rodeo. Well folks, let's get in the spirit—'It's Fair and Rodeo Time" in McKinney and Collin County next month.

▶ THIS SECTION of Your Home Towners team along with other McKinney and Collin County citizens will attend a meeting in Greenville today of the East Texas Chamber of Commerce. Truett Smith, Wylie banker and outstanding Texas citizen, is Vice-President of The ETCC and we hope that next year will be its president. Truett is qualified in every respect for the assignment as president.

▶ THANKS FOR the invitation from H. A. Finch to the old-fashioned fish fry Friday, July 9. This is the annual meeting of the McKinney Production Credit Association of which Your Home Towners friend H. A. is secretary-treasurer. We'll be there because "we does like fish"—and plenty of 'em.

Hospital Board Meets Friday

The regular monthly meeting of the Board of Governors of the City-County Hospital will be held Friday evening, August 9 at 7:30 o'clock in the nurses' home.

Tom W. Perkins, chairman of the Board, urges all directors to be present.

Merchants Stock Fall Merchandise

★ ★ ★

The school bell will be tolling soon and the merchants of McKinney have prepared for the "Back To School" season by stocking their stores with the latest of Fall items for not only the college set but also children going to school for the first time. M. A. Jones, Manager of the Retail Merchants Association said today.

He urged shoppers to make their selections now and not wait until after school has opened and the large stocks of merchandise the stores have on hand have been depleted.

Most of the local stores, Mr. Jones said, have easy payment plans for the convenience of buyers whose ready cash was spent for vacations or for the unexpected expenses. Under this plan a shopper can buy now and pay for the goods later over several pay days.

Mr. Jones predicted that Fall outfits would probably be the most popular sellers of the "Back To School" season and is preparation, department stores and specialty shops have stocked the latest fashions in Fall wear and accessories.

He said the "Chanel Look" was expected to be popular this year among the coeds and many merchants are featuring plaid Bermuda type shorts for casual wear, wool jersey middy dresses and three-piece suits with knife-pleated skirts. Iris blue with green and pepper red and charcoal are expected to be the most popular colors for the college set this Fall.

For the younger set complete new outfits may be needed since the boys and girls have probably outgrown the clothes they wore last Fall. He urged shoppers to make the rounds of the shoe stores jewelry stores, children's shops, department stores and specialty shops to look at the bargains offered, he said.

Now that most areas of Texas are "off drought relief" and rainy seasons are expected to be with us for the next few years. Mr. Jones suggested that raincoats and other rainy weather accessories be added to the children's wardrobe.

Furniture stores are now offering many attractive desks and other study room items.

Most drug stores carry a large and assorted stock of school supplies that the students will need in class.

Football, basketball and other sports equipment which the children will need for "gym" and after school recreation is available at any sporting goods store.

Also, now is the time to have the family "bus" checked to determine whether new tires and battery are needed and to consider now buying a heater for the car.

Mr. Jones said many housewives do their Fall food buying in the late summer and stock the fresh vegetables that won't be on the market in a few months, in a deep freeze. Purchase of a deep freeze from an appliance store will assure fresh nourishing food for the kids throughout the school year.

He also reminded now that the growing season had ended, Fall is the time to rework the garden, yard, and flower beds. Equipment for this work can be obtained from hardware stores.

Even though some of the college students will be going to another city to school, Mr. Jones urged that the shopping be done locally where quality merchandise at a reasonable price can be obtained and where service and items are backed by the reputation of the local merchant.

State Approval Granted Allen Water Supply

The McKinney Collin County Health Unit announces that an official letter has been received by Vergil B. Watson, Mayor, of the City of Allen from Dr. Henry A. Holle to the effect that the municipal water supply and distribution system of the City of Allen has been given Approval status by the Texas State Department of Health. A sanitary survey was made by Thomas P. Rogers of Austin and Winfred Taylor, County Sanitarian on June 18, 1957 for the purpose of locating possible sources of contamination, determining protective measures which have been provided to safeguard the water from contamination, reviewing the operating practices being followed and evaluating the chemical and bacteriological quality of the water. On the basis of the information secured at the time of survey, a numerical sanitary rating was computed, and it was determined that the City of Allen merited a Class A status or Approved status for its water system.

At present time, this brings the total of approved water systems within the county to a total of four incorporated cities: Celina, Prosper, McKinney, and Allen. There are several other cities that are working toward this desired goal, and it is expected that future surveys of these cities will bring official approved status to them. In commenting on an approved water supply, Mr. Taylor states that it is indeed an honor for any community or city and that it works toward the interests of promoting growth within a city from a residential and industrial standpoint, for water is usually one of the chief concerns of any individual or industry that is contempating locating within a city. In view of the high standards demanded by the Health Department to obtain "Approved" status, cities granted the honor are authorized to erect "Public Water Supply Approved" signs on highways entering the cities.

Mr. and Mrs. Troy Wright and family, of Dallas, were guests of Mr. and Mrs. E. G. Roberts, Friday night at Cottage Hill.

Karen Ann Little, daughter of Mr. and Mrs. Jimmie Little, of Richardson, has returned to her home after a visit with her grandparents, Mr. and Mrs. Dan Little in this city.

K. J. O'Brien, acting manager of the McKinney Veterans Administration Hospital, announced this morning that officials of the Veterans Administration Hospital in this city completed a contract with the Hamilton Roofing Company, Fort Worth, Texas, for the re-roofing of 49 buildings and connecting corridors at this hospital as the first phase of the modernization program. The Fort Worth firm was low bidder on this project, and it is estimated that work on re-roofing will begin August 7. The re-roofing of these buildings will be completed in about 6 to 8 weeks, at an estimated cost of $95,864.

Meanwhile, the architectural firm of Wyatt C. Headrick of Dallas, Texas, is completing the plans and specifications for the remainder of the modernization project. This will include air conditioning of all wards and patient areas, interior modernization and major alteration of such areas as main kitchen and dining hall and surgery. Two new larger capacity water storage tanks will be constructed, and repairs will be made to the sewage treatment plant. It is estimated that the entire modernization program will be completed within one year.

Farm Bureau Leaders To Meet August 20

Several Collin County Farm Bureau leaders will attend a meeting District in McKinney to plan for the policy development activity which gets under way soon, according to Gerald Furr of Rhea Mill, county president.

Purpose of the district-wide meeting, one of 17 being conducted over the state, is to lay plans for securing maximum participation of the membership in the Farm Bureau policy making process which starts with the annual county convention, followed later in the year by the state convention and culminating with the national Farm Bureau convention in December.

Among the issues which will be discussed at the district meeting are the state rural road building program, livestock disease control, increasing the truck load limit law, the rural electrification bill passed by the recent 55th legislative session, agricultural research and education, and expansion of agricultural markets.

These and other local, state, and national issues will be discussed again in meetings to be held over the county during the few weeks preceding the county convention. At the convention, Farm Bureau members will adopt county policies and make recommendations to the Texas Farm Bureau on state and national issues.

Following this developmental phase, Farm Bureau members strive to get their policies enacted into law during the "Policy Execution" activity which takes place in the Spring.

"It is extremely important for farmers to take advantage of this opportunity to work together through democratic processes to try to solve their problems," Mr. Furr said. "If farmers don't take the initiative in solving their own problems, some one else is going to try to solve their problems for them—and not always to their advantage."

The FB leader said that discussion and exchange of ideas is essential to the proper functioning of Farm Bureau's policy making process.

"This involves study and analysis of issues currently affecting agriculture—and those that might come up in the future," he said. "The main purposes of this planning meeting is to develop techniques for encouraging farmers to do the studying and analyzing necessary."

It is well worth the farmers' time to take off from their crops "to protect their interests on the other side of the fence," he said.

J. T. Woodson, District 1 Farm Bureau director, will be in charge of the meeting Tuesday, August 20, at Community Room—Collin County National Bank. He is expected to report on the TFB's legislative activities during the recent session and explain proposed constitutional amendments which will be voted on in the next general election.

Mr. and Mrs. Marshall Smith of Grand Prairie, spent the weekend in Blue Ridge.

Parents Liable For Property DamageByMinors

MINORS-MALCIOUS AND WILFUL DESTRUCTION OF PROPERTY — LIABILITY OF PARENTS.

Chapter 32079—H. B. No. 45:

An Act to authorize the recovery of civil damages due to the Malicious and wilful damage to or destruction of property by minors; limiting the amount of recovery to Three Hundred Dollars ($300); making the Act cumulative of other laws on the subject; and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. Any property owner, including any municipal corporation, county, school district, or other political subdivision of the State of Texas, or any department or agency of the State of Texas, or any person, partnership, corporation or association, or any religious organization whether incorporated or unincorporated, shall be entitled to recover damages in an amount not to exceed Three Hundred Dollars $300 from the parents of any minor under the age of eighteen (18) years and over the age of ten (10), who maliciously and wilfully damages or destroys property, real, personal or mixed, belonging to such owner. However, this Act shall not apply to parents whose parental custody and control of such child has been removed by court order, decree, or judgment.

Section 2. The suit may be brought in any court of competent jurisdiction, and venue thereof shall be governed by the statutes regulating venue in actions based upon trespass. The recovery shall be limited to the actual damages in an amount not to exceed Three Hundred Dollars ($300), in addition to taxable court costs.

Section 3. The action authorized in this Act shall be in addition to all other actions which the owner is entitled to maintain and nothing in this act shall preclude recovery in a greater amount from the minor or from any other person, including the parents, for damages to which such minor or other person would otherwise liable, it being the purpose of the Act to authorize recovery from parents, and to limit the amount of the recovery, in situations where they would not otherwise be liable.

Section 4. The importance of this legislation to the protection of property owners from the malicious and wilful acts of minors creates an emergency and an imperative public necessity that the Constitutional Rule requiring bills to be read on three several days in each House be suspended and this Rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

With The Home Demonstration AGENT

BY MRS. LURLINE DASPIT

Summer is an ideal time to take inventory of your home's safety condition. Many of us fail to realize the importance of practicing safety in the home until mother hangs a heel in the worn stair carpeting and tumbles down a flight of stairs or until Junior reaches for the stew pan handle that is attractively protruding beyond the front edge of the kitchen range.

Why not make a survey of the safety hazards that are lurking in your home and around your farmstead? Our office has some check lists that will help you find the hazards that are endangering your family's safety. Bulletin L-321 includes a checklist for each room in your home. It covers items that we seldom realize pose acident problems. For instance. For instance, "Do you keep the floor clear of tripping hazards? Do you keep scissors, pins and sharp tools out of reach of children? Are frayed or worn electric cords repaired or discarded? Do you always make sure that your hands are dry before touching any electrical appliance or fixture while standing in the tub or on a damp floor?"

4-H Bulletin Practice Home and Farm Building Safety lists safe practices that help prevent accidents, as well as a hazard checklist for the farmstead. This checklist asks questions such as: "Are stairways and steps in all buildings well lighted, kept clean, in good repair and have hand rails? Is gasoline and other flammables stored in a safe place and in a safe manner? and Is all debris such as broken glass, old boards and trash kept cleaned up around the farmstead?

An afternoon, or even an hour or two devoted to surveying your home and farmstead for accident hazards will be time well spent.

Arm yourself with a checklist and a pencil and begin work: When you find a hazard correct it or make a note on the checklist so it can be corrected as soon as possible.

Eliminiating safety hazards and practicing safety habits will make your home a safer place in which to live.

The goal of the 4-H Safety program is a good safety creed for each individual:

To be safety conscious while at home, at work, at play, and on the highway.

NEW SPORTS FISHING LICENSE LAW.

Beginning September 1, 1957, the cost of fishing licenses will be increased slightly. The additional revenue will enable the Game and Fish Commission to increase its work program by about 25 percent and will generally benefit Texans interested in better fishing.

The important points in the new law are listed below as they appeared in the July issue of TEXAS GAME and FISH magazine.

"Effective September 1, 1957, the New Sports Fishing License Law states, in effect, that:

1. It shall be unlawful for any person to fish in any waters of this state without first obtaining a fishing license, the fee for which shall be two dollars and fifteen cents ($2.15).

2. Exceptions:

A. No person under seventeen (17) years of age and no person over sixty-five years of age shall be required to possess a sports fishing license.

B. No person, or member of such person's immediate family, shall be required to hold a sports fishing license when fishing upon property he owns or upon which he resides.

C. No license shall be required of persons fishing with trotline, throw line, or ordinary pole and line having no reel or other winding device attached when fishing in the county of his residence.

D. No other fishing license shall be required of a person who holds a commercial fishing license issued in this state.

The new fishing license law which becomes effective September 1, 1957, differs from the present law in several ways, including the following:

1. The fee for the new 1957 license will be $2.15—the old one cost $1.65.

2. The new law is not concerned with the kind of bait (artificial, live, or dead) used. The license under the old law was often referred to as the "artificial lure license."

3. Under the new license law Texas residents and out of State visitors pay the same amount for a sports fishing license which is valid from September 1, the year issued, until August 31, of the following year.

4. The new sports fishing law which requires salt water anglers to be licensed, coupled with the lowered fees charged non-residents follows the recommendations of the Sports Fishing Institute for a salt water license. It also paves the way for a reciprocal licensing program with some of our neighboring states."

There are more than 21 million former 4-H'ers throughout the country, and undoubtedly the beneficient influence of 4-H training and ideals has affected the lives of everyone. Among them are men and women whom you know as friends and neighbors such as farmers, housewives, the family doctor, school teachers, local businessmen and legislators.

By sending in the name of a qualified 4-H alumnus, you may pave the way for well deserved recognition. Two winners from your county may be named for special recognition certificates. Four outstanding persons will be honored in the state to be presented with a handsome plaque.

Eight men and women selected as national winners will be honored during an impressive banquet at the national 4-H Congress in Chicago next December. Besides the expense paid trip, each one will receive a gold 4-H alumni key. The 1958 candidates also will be selected from the 1957 nominationus.

LETTERS FROM...

THE PEOPLE

LIBERTY CANNOT ENDURE IN A DESPOTIC GOVERNMENT AND PUPPET STATES

July 4, 1776, gave to America her greatest blessing, a nation based upon the unalienable and God endowed rights of life, liberty and the pursuit of happiness. The 5th of July 1935, foisted on America her greatest curse, the Wagner Labor Law. A Trojan Horse which kicked the lid off of Pandora's box and let out such Communist progenies as Unrestrained strikes. Closed shop, FEPC, NAACP, Centralization, and inflation of all necessaries of life, and finally bankruptcy and slavery.

Is not it obvious that the goal of the FEPC and NAACP is not Education but mongrelization of the white race? Some years ago, a Negro man was sent to Texas prison for criminal assault on a white girl, The Pardon Board wrote the trial judge for facts. He said the white girl and Negro worked side by side for some time and a romance developed. They might have married if Texas had permitted it. Sworn proof of the escapades of the Washington integrated schools showed an increase in crime and pregnancies, and the molesting of white girls by Negro boys by writing them notes and using obscene language in their presence, which made necessary police call an average of once a week. Page 46 of Feb. 22 of U. S. News & W. P. shows teen age white girls in shorts dancing with teen age Negro boys. Would not those who would send pure mothers to jail for protecting their daughters from such evil influences, have jailed the virgin Mary for refusing to turn the child Jesus over to his enemies to teach him, and would have crucified Christ for not choosing any Negro apostles? But the NAACP and its henchmen seem determined to have Negro integration if it destroys the nation. The Life Magazine of Aug. 1948 had a picture of 7 mulatto children which it said were taken from a group of 552 mulatto children whose fathers were U. S. A. Negro soldiers and their mothers were white women of England. An integrated Negro sergeant at Ft. Hood armed with a pistol went to Waco and approached an airman talking to his intended bride. He robbed the airman and tried to criminally assault the intended bride, the white airman tried to prevent said crime and the Negro murdered him and the girl saved herself from an outrage worse than death by flight. No clause in the Constitution nor yet in the federal statute which says state segregation is unconstitutional. The NAACP claims the 14th amendment applies to it. But Judge Warren who wrote the 1954 decision which ignored all of said court's previous decisions, was quoted as saying that the 14th amendment does not really apply, because its framers couldn't have possibly had public schools in mind. Said Court did not cite any part of the Constitution that state segregation violates. Has any one cited any clause in the Constitution that supports said decision? Said decision said that its opinion was that segregation based solely on race deprives the minor group of equal educational opportunities. Black's Law Dictionary says Simplex Dictum is an assertion without proof. Recently an East Texas city of a large Negro population were polled and 95% of them voted that Negro pupils could progress better under competent Negro teachers, than under white teachers. So said decision was based only on an assertion without proof but on an untrue assertion. Federal Judge W. H. Atwell was quoted as saying that said decision was based not on law but on psychological knowledge. Will free white Americans permit their race to be mongrelized and their nation destroyed on such flimsy decision?

Mathew 2-16 says: Herod slew all the children under two years old in Bethlehem. If some American rulers jail pure men and women who want to rear their children in the nurture and admonition of the Lord and let the NAACP take over the custody of their children and forcing them daily to eat, march, dance, and swim with Negroes so that some of them will become fathers and mothers of mulatto families, will not they be like the rich mentioned in Luke 16 22-23-24. and who wanted a drop of cold water for parched tongues.

T. C. ANDREWS,
McKinney, Texas.

Construction Begins On Detention Dam Southeast of Wylie

Construction of the dam for the flood prevention reservoir on Maxwell Branch began recently. Site of the new dam is on W. H. Hooper's farm Southeast of Wylie.

The detention reservoir, which is being built by the Soil Conservation Service, is a part of the flood prevention and soil conservation program on Rowlett Creek watershed. When competed it will detain runoff water from 6623 acres during periods of heavy rainfall and release it slowly through a draw down tube at a rate the creek channel can handle.

Two detention reservoirs are already in operation on Main Muddy and Kilgore Branch. They materially aided in keeping down flooding of bottom land in Muddy Creek watershed during the spring rains.

Cost of the new dam is $52,-859.30. Construction is under contract to the firm of Arnett and Duncan of Corsicana, Texas.

LETTERS FROM . . .

THE PEOPLE

F. D. R. once made a ridiculous comparison of a 4-inch tail wagging a 4-foot dog. But the NAACP can trump that. A few years ago it claimed a membership of 300,000, about 1-500 of our total population. But has not it largely been wagging the 499-500 of our people? Prior to 1954 our Supreme Court had held that state school segregation was not unconstitutional every time it came before it; But in 1954 the NAACP asked it to hold said segregation unconstitutional and it did so. It asked our two major national conventions to endorse said Court decision they did so. It asked the nominees of said parties for president and vice-president to endorse it and they did. It asked Congress to enact the most drastic enforcement bill offered. Not since Thomas Jefferson hurled the indictment against George III denying Americans the right of a trial by jury has Congress tried to deny the right of a trial by jury in a criminal case until the present one, except in court martial of the army and navy. The trial and conviction of L. P. Milligan by military commission was held void by the Supreme Court. Mrs. Mary Surratt was tried and convicted by a military commission as an accomplice in the death of Lincoln was executed but the result of the Supreme Court's decision in the Milligan case evidently convinces any lawyer that the said court would have held her conviction void as it did Milligan case? One of the men hung for the murder of Lincoln told his executioner that Mrs. Surratt had nothing to do with the crime. The plotters had moved from her house and formed the plot at another hotel. She stood on the scaffold and prayed that she might be saved and prayed for her enemies and said they know not what they did. Who wants to try the pure mothers without a jury for protecting her children against wicked influences?

Who wants to take the liberty from white parents to please the NAACP? Thanks to Dick Russell for thwarting the attempt of those who would surrender white American parents and their children to the domination of the NAACP.

Granddaughter Of Celina Woman Home From Polio Center

Mrs. Lee Terry of Celina has been informed that her granddaughter, Miss Elaine Terry, is at the home of her parents, Mr. and Mrs. Charley Terry, in Laporte, Texas, after being a patient since March in the Southwestern Polio Center, Houston.
